TAKE CHARGE OF YOUR MAILBOX

Reduce Catalog Clutter

Do you wish for a way to stop the nuisance of unwanted catalogs? If so, then Office of Consumer Affairs invites you to look no further than www.catalogchoice.org. The website's free services reduce the number of repeat or unsolicited catalog mailings and are available for both consumers and businesses to use. Consumers register with the site and then indicate which catalogs they no longer wish to receive. The site is designed for continued use, so if you receive more unwanted catalogs simply return to the site and choose to decline them. Currently, more than 19 billion catalogs are produced and discarded each year. Not only does Catalog Choice help you to benefit from reduced mailbox clutter and increased consumer privacy, it also gives you the power to positively impact our environment. This service gained national attention when the Park School in Brookline announced they cancelled 4,175 unwanted catalog subscriptions in a single month. You too can take back control of your mailbox by becoming one of the nearly half million consumers who have registered with Catalog Choice. Join for free at www.catalogchoice.org.

SALT NEWS

CELL PHONE UPDATE

If you have received a cell phone from our emergency phone program, you may need a new updated phone. Some older phones use the analog network instead of the newer digital technology. As of February 19, 2008, access to 911 for the older analog phones was discontinued. If you received your phone from us fairly recently, your phone will not need to be replaced. However, if you have an older phone, you may need to get a new phone. Our cell phones are distributed the 3rd Tuesday of each month. The next dates are May 20 and June 17. For more information or to schedule an appointment, please call the Center at 565-4150.

Web Site Offers Resources on Community Services

Older adults, families, caregivers, and advocates searching for community-based services and resources for older adults can find help at the Eldercare Locator, a free national Web service of the U.S. Administration on Aging. A visit to the site provides an instant connection to resources that enable older persons to live independently in their communities. Among them are *Housing Options for Older Adults: A Guide for Making Housing Decisions*, which includes a PowerPoint presentation and instructor guide.

The National Association of Area Agencies on Aging administers the Eldercare Locator in partnership with the National Association of State Units on Aging. www.n4a.org/locator.
