Hello! I would like to send you an email asking if you would be able a proclamation for April 2 to be World Autism Day. April is World Autism Month. There is 1 out of 44 children and 1 out of 45 adults with autism in this country. Autism is a developmental disability that affects people for the rest of their lives. I was wondering if the city/town/county could do something to spread autism awareness by displaying key monuments and sights to light it up blue. Please let me know if we could work together to spread autism awareness!

Thanks,
Mike DiMauro
