You Made a Difference

It's 3:10 p.m.

Tori is a middle school student who is still excited about the summer and after-school STEM program she attended. She fell in love with the program, and even began to think a career in science was possible for her, but she knew she had to improve her grades if she wanted to try for a career in the engineering field.

After STEM, Tori began to work harder in school and received her first straight "A" report card. More importantly, Tori has grown from an unhappy, struggling student to a real leader in her school.

It's 9:25 a.m.

Louise and Frank were having difficulty making ends meet. They managed to pay their day-to-day living expenses just fine, but Frank became ill, and the medical expenses associated with Frank's cancer treatment were mounting quickly. Louise needed to take time off from work to care for her husband of 42 years.

Louise and Frank were able to get fuel assistance to keep the house warm. It helped Louise get caught up on her other bills and keep the family safe, warm, fed and housed.

It's 1:15 a.m.

Sarah is a young woman with two small children. Her abuser did not allow her access to household money which kept her in the abusive home. When she went into safe housing she was able to learn how to budget and save money with financial coaching support.

By the time she was ready to leave, she saved enough money to pay a security deposit and move with her children into their own apartment. She is now enrolling in a First Time Homebuyers program and hopes to one day own her own house.
